Introduction

For more than 40 years, Verbatim has been at the forefront of the evolution in data storage technology and today remains one of the most recognisable and respected names in the industry.

Verbatim is now the No.3 brand in Europe for all recordable media* and the global No.1 brand** in optical media with a reputation for quality and reliability, both for the products that it sells and the service that it provides.

And as a subsidiary of Mitsubishi Chemical Corporation, a world leader in the chemical industries, Verbatim is ideally positioned to take advantage of changes in the market while continuing to challenge the frontiers of data storage.

Verbatim - Technology you can trust

(*GfK 11/09 Europe 5 including Tape, CD, DVD, Blu-ray, USB, Flash Cards and External HDD).

Recordable DVD PhotoSave

DVD-R PhotoSave	Capacity	Speed	Pack Style	Part No
PhotoSave DVD	2000*	16x	25 Pack	43702

*Photos of 2MB each

PhotoSaveDVD

DVD recordable discs with integrated Photosave software to enable you to effortlessly and safely preserve over 2000 of your precious photos.

Protect your valuable photos from hard drive crashes or accidents in 3 easy steps:

- 1 Insert the PhotoSave DVD into your DVD-R drive. The software will launch automatically.
- 2 Import photos directly from your digital camera or PC via automatic photo search.
- 3 Click "record" to save your memories to DVD. PhotoSave DVD supports multiple recording sessions allowing you to add more photos later.

Secure DVD Media

DVD SecureSave	Capacity	Speed	Pack Style	Part No
SecureSave DVD	4.5 GB	16x	Single	43706

SecureSaveDVD

Recordable DVD that saves and protects your files using AES 256bit encryption
Automatic software start after disc insertion into burner - no software installation needed
100 years lifetime expected

Effortless way to save and protect your files

Provides a safe way to post confidential documents (password would be provided separately by email)

Core Technologies

Support

Core Technologies

Verbatim has always been at the forefront of technological innovation. We are able to maintain our leadership and market the very latest products and technologies due to the extensive research and development that is undertaken by parent company Mitsubishi Kagaku Media in Japan.

We pride ourselves on our 'Core Technologies'

AZO

- Ultimate resistance to UV light for increased protection and reliability.
- High quality picture and sound with more than 100 years archival.

HARD COAT

- A specially created tough coating for DVD media that is superbly resistant to harmful scratches.

MABL

- Metal Ablative Recording Layer. A specially created inorganic recording layer present on Verbatim's BD-R media ensures excellent recording compatibility and prolonged stability for archival life.

SERL

- A special recording layer present on Verbatim's CD-RW and DVD/RW media that ensures noise-free recording time and time again.

CRYSTAL

- A tough, clear surface layer for increased protection against accidental surface damage.

Medi Disc

- CD-R and DVD-R targeted toward the medical industry for storing valuable patient information. Uses both AZO and Crystal coating technologies.
